Tips for Riding Valley Metro

- Plan on arriving at your bus stop or park-and-ride at least five minutes early.
- Let the bus operator know you'd like to board the bus by signaling as the bus approaches your stop.
- If you have a bike, have it ready to load and lower the bike rack on the front of the bus. Secure your bike by extending the hook over the tire.
- Board through the front doors and move towards the back of the bus.
- As the bus operator approaches your destination, signal the operator to stop by pulling the bell cord or pressing the rubber strip located above the seats.
- If you need to remove your bike, exit through the front door and advise the operator. Release the hook from the rack and lift your bike. Return the rack to the upright position and move away from the bus.
