Maricopa County Air Quality Excellence Award – Additional Submission Criteria

Description: This award acknowledges an individual, environmental or philanthropic organization, business interest or government body, currently participating in the Maricopa County Trip Reduction Program, that has demonstrated significant initiative, commitment, leadership and accomplishment in developing or implementing an activity or program that has resulted in substantive and long-term air quality benefits or awareness.

1. Identify the major accomplishments that justify the presentation of this award.
2. Describe what measureable benefits have resulted from individual or collective efforts made to improve air quality.
3. If appropriate, identify those aspects of the efforts that were replicated by other organizations or widely shared or have the potential for replication.
4. Explain whether the contributions have been long-lasting or sustainable.
5. If appropriate, disclose any current federal, state or local environmental violations, lawsuits or complaints involving air quality (Note: An affirmative answer to this question does not automatically disqualify the applicant).
6. Present any other information that demonstrates efforts deserving of this award.
