FIESTA DOWNTOWN CHANDLER

TITLE
TRANSIT CORRIDOR
FEASIBILITY STUDY

TYPE

REPORT CARD / JULY, AUG, SEPT 2016
valleymetro.org/fiesta

PROJECT DESCRIPTION

Valley Metro, in partnership with Mesa, Chandler and Gilbert, initiated the Fiesta-Downtown Chandler Transit Corridor Study (FDCTCS) to study the potential area and requirements for short, mid and long-term transit investments within the Arizona Avenue/Country Club Drive corridor. This 24-month study will examine transit improvements and enhanced land use strategies within the defined study area.

BENEFITS

The Fiesta-Downtown Chandler Transit Corridor Study will identify short to long-term solutions for enhanced transit services between two activity centers, the Fiesta District and Downtown Chandler, as well as potential connections between Chandler, Gilbert and the region's high-capacity transit system.

UPDATE

- Evaluated two high-capacity transit scenarios and identified potential station locations comparing potential ridership, capital costs, destinations served, demographics and land use conditions
- Developed conceptual designs for potential light rail consideration within the study area

BUDGET		
Description	Programmed*	Expended**
Feasibility Study	\$687,500	\$368,795
TOTAL	\$687,500	\$368,795

*Does not include financing cost.
**Estimated as of September 30, 2016.
