

# Upcoming Construction

Below is a snapshot of major work phases coming in the near future along Ash and Mill avenues and University Drive. More details and assistance will be provided to affected stakeholders for each phase as it approaches. This document is not inclusive of all remaining streetcar construction.

**1 Track Installation on Ash Avenue | February - April**  
**Potential Impacts**  
 - Lane drops and possible turn restrictions  
 - Crosswalk detours  
 - Due to increasing temperatures and access requirements, work will occur overnight causing noise

**2 Track Installation at 10<sup>th</sup>/Mill Intersection | March - April**  
**Potential Impacts**  
 - Possible weekend/week night closures and turn restrictions  
 - Crosswalk detours  
 - Due to increasing temperatures, some concrete work may occur overnight causing noise

**3 Track & Stop Installation at 9<sup>th</sup>/Mill Intersection | March - April**  
**Potential Impacts**  
 - Intermittent cross-traffic restrictions and possible turn restrictions  
 - Crosswalk detours  
 - Due to increasing temperatures, some concrete work may occur overnight causing noise

**4 Track Installation on Mill Ave: University to 10<sup>th</sup> | March - July**  
**Potential Impacts**  
 - Lane drops and possible left turn restrictions  
 - Crosswalk detours  
 - Due to increasing temperatures, some concrete work will occur overnight causing noise

**5 Track Installation at Ash/University Intersection | April, May**  
**Potential Impacts**  
 - 24/7 intersection closure that will occur over two weekends: one weekend in April and one weekend in May  
 - Crosswalk detours  
 - Overnight work will cause noise

**6 Track Installation on University Drive | May - June**  
**Potential Impacts**  
 - Lane drops and turn restrictions  
 - Crosswalk detours  
 - Overnight work will cause noise

**7 Stop Installation on Mill Avenue | May - August**  
**Potential Impacts**  
 - Temporary traffic restrictions  
 - Crosswalk detours  
 - Overnight work will cause noise

**8 Track Installation at University/Mill Intersection | late June - July**  
**Potential Impacts**  
 - Two phases of work with varying restrictions  
 - Crosswalk detours

*Work days and hours subject to change due to nature of work in different areas and/or unforeseen circumstances.*
