Board of Directors
Valley Metro Rail, Inc.

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the Valley Metro Rail, Inc. (VMR), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise Valley Metro Rail, Inc.’s basic financial statements, and have issued our report thereon dated November 10, 2015.

Internal Control Over Financial Reporting
In planning and performing our audit of the financial statements, we considered Valley Metro Rail, Inc.’s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Valley Metro Rail, Inc.’s internal control. Accordingly, we do not express an opinion on the effectiveness of Valley Metro Rail, Inc.’s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.
Compliance and Other Matters
As part of obtaining reasonable assurance about whether Valley Metro Rail, Inc.’s financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Purpose of this Report
The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity’s internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity’s internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report on Compliance for Each Major Federal Program; 
Report on Internal Control Over Compliance; and 
Report on Schedule of Expenditures of Federal Awards 
Required by OMB Circular A-133

Independent Auditor’s Report

Board of Directors
Valley Metro Rail, Inc.

Report on Compliance for Each Major Federal Program
We have audited Valley Metro Rail, Inc.’s compliance with the types of compliance 
requirements described in the OMB Compliance Supplement that could have a direct and 
material effect on each of Valley Metro Rail, Inc.’s major federal programs for the year ended 
June 30, 2015. Valley Metro Rail, Inc.’s major federal programs are identified in the summary 
of auditor’s results section of the accompanying schedule of findings and questioned costs.

Management’s Responsibility
Management is responsible for compliance with the requirements of laws, regulations, contracts, 
and grants applicable to its federal programs.

Auditor’s Responsibility
Our responsibility is to express an opinion on compliance for each of Valley Metro Rail, Inc.’s 
major federal programs based on our audit of the types of compliance requirements referred to 
above. We conducted our audit of compliance in accordance with auditing standards generally 
accepted in the United States of America; the standards applicable to financial audits contained 
in Government Auditing Standards, issued by the Comptroller General of the United States; and 
OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. 
Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain 
reasonable assurance about whether noncompliance with the types of compliance requirements 
referred to above that could have a direct and material effect on a major federal program 
occurred. An audit includes examining, on a test basis, evidence about Valley Metro Rail, Inc.’s 
compliance with those requirements and performing such other procedures as we considered 
necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each 
major federal program. However, our audit does not provide a legal determination of Valley 
Metro Rail, Inc.’s compliance.
**Opinion on Each Major Federal Program**

In our opinion, Valley Metro Rail, Inc. complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2015.

**Report on Internal Control Over Compliance**

Management of Valley Metro Rail, Inc. is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Valley Metro Rail, Inc.’s internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Valley Metro Rail, Inc.’s internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

**Report on Schedule of Expenditures of Federal Awards Required by OMB Circular A-133**

We have audited the financial statements of Valley Metro Rail, Inc. as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise Valley Metro Rail, Inc.’s basic financial statements. We issued our report thereon dated November 10, 2015, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements.
The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

NOTE 1 – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (Schedule) includes the federal grant activity of Valley Metro Rail, Inc. under programs of the federal government for the year ended June 30, 2015. The information in the Schedule is presented in accordance with the requirements of the Office of Management and Budget (OMB) Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Because the Schedule presents only a selected portion of the operations of the VMR, it is not intended to and does not present the financial position, changes in net position or cash flows of the VMR.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the applicable OMB cost principles circular, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Any negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. Pass-through entity identifying numbers are presented where available.

NOTE 3 – CATALOG OF FEDERAL DOMESTIC ASSISTANCE (CFDA) NUMBERS

The program titles and CFDA numbers were obtained from the federal or pass-through grantor or the 2015 *Catalog of Federal Domestic Assistance*. When no CFDA number had been assigned to a program, the two-digit federal agency identifier, a period, and the federal contract number were used. When there was no federal contract number, the two-digit federal agency identifier, a period, and the word “unknown” were used.
SUMMARY OF AUDITOR’S RESULTS

Financial Statements

Type of auditor’s report issued:  Unmodified

Internal control over financial reporting:

- Material weakness(es) identified?  yes  X no
- Significant deficiency(ies) identified?  yes  X none reported

Noncompliance material to financial statements noted?  yes  X no

Federal Awards

Internal control over major programs:

- Material weakness(es) identified?  yes  X no
- Significant deficiency(ies) identified?  yes  X none reported

Type of auditor’s report issued on compliance for major programs:  Unmodified

Any audit findings disclosed that are required to be reported in accordance with section 510(a) of OMB Circular A-133?  yes  X no

Identification of major programs:

CFDA Numbers  Name of Federal Program or Cluster
29.500, 20.507, 20.525  Federal Transit Cluster
20.523  Capital Assistance Program for Reducing Energy Consumption and Greenhouse Gas Emissions

Dollar threshold used to distinguish between Type A and Type B programs:  $1,379,535

Auditee qualified as low-risk auditee?  yes  X no
FINDINGS RELATED TO FINANCIAL STATEMENTS REPORTED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

None reported.

FINDINGS AND QUESTIONED COSTS RELATED TO FEDERAL AWARDS

None reported.
Status of Federal Award Findings and Questioned Costs

The VMR had no findings or questioned costs related to federal awards noted in prior audits that require a status.
